FEB 05 2010

Paul Stacey  
Bureau of Water Protection  
DEP  
79 Elm St.  
Hartford, CT 06106

Dear Mr. Stacey:

I wanted to write you a short letter to express my support for the proposed Stream Flow Standards and Regulations in response to PA 05-142, enacted in 2005. As an ardent supporter of environmental protection, I very much want to see these regulations passed. I would ask that you do what you can to get these regulations completed and to keep special interests from undermining the intent of these regulations as they pass through the regulatory process. Finally, I believe that none of Connecticut's rivers and streams should ever be allowed to run dry. To that end, I would ask that you either include Class 4 rivers in these stream flow regulations, or eliminate Class 4 entirely, so that all of Connecticut's rivers are protected.

If you have any questions, please do not hesitate to call me at (203) 542-4067.

Sincerely,

John T. Miranowski
